Living room, office and playroom in one.

Telematic accessories make more of your Mercedes-Benz.

Mercedes-Benz

Business Calls.
Even when you're on the move.

You're on the road and want to arrange a meeting, you're waiting for a text or you have to charge the battery on your mobile. The solution is simple: The functionality of your Mercedes-Benz convenience telephony[1] can easily extend to meet all of your communication requirements.

Mercedes-Benz Bluetooth® (SAP) telephone module[2 3 4]

- Optimum reception – using the vehicle's aerial allows the highest reception quality, without exposure to radio waves
- Drive safely – with hands-free system and multifunction steering wheel control
- Always reachable – charge your mobile's battery via the USB interface
- Optimum phone usage – access to contact details saved in your phone book/on your SIM card
- Up to speed – read and receive text messages[5]

Item no.: A212 906 8600

£394

Mobile-phone holders[4]

- Full reception – using the vehicle's aerial allows the highest reception quality, without exposure to radio waves
- Safety on the move – with hands-free system and multifunction steering wheel control
- Always reachable – charging function for your mobile
- All the important numbers – access to contact details in your phone book
- Easy to change – "intelligent" mobile-phone holders can be interchanged with a simple "click!"
- Broad selection – available for many different Apple, Nokia, BlackBerry and Sony Ericsson models[5]

e.g. for iphone 4 & 4S: A212 820 1651[6]/1751

£252

1) Optional extra Code 386, Convenience Telephony.
2) Two versions of the Mercedes-Benz Bluetooth (SAP) telephone module are available: one in the form of a closed box (pictured) and the other with a corded handset (not pictured, depending on engine variant in conjunction with telephone console A212 820 0651). Both versions feature a SIM card reader.
3) SAP (SIM Access Profile) allows the module to read your mobile phone's SIM card.
4) Can be used with optional extra Code 386, Convenience Telephony.
5) Depending on vehicle model and mobile phone. If you have any questions about compatibility with your particular vehicle and mobile, please contact your local Mercedes-Benz Retailer. For further information, go to www.mercedes-benz.com/connect
6) A212 820 1651 – with 30cm audio cable for connection to media interface - Allows use of the audio function onboard

Surfing, just like at home. Courtesy of your car.

Read an email from a colleague or a quote from a supplier, buy presents for family or chat to friends – you can now do all of these things in your Mercedes-Benz, using any WLAN-enabled device or via the display of your COMAND APS.

Mercedes-Benz InCar Hotspot[1]

- Mobile office – receive large quantities of data, send emails, prepare presentations
- Take care of the important things – shop online, book a flight, buy presents
- Everyone's online – up to four WLAN-enabled devices can be used at the same time
- Optimum reception – the system uses the vehicle's aerial to ensure a quick, stable connection[2]
- Always up to the minute – passengers can surf while you're on the move

e.g. for E-Class (W212): A212 900 0312

£800

Mercedes-Benz InCar Internet[3]

- Always online – unrestricted surfing with web browser (when vehicle is stationary), web radio and RSS feeds (while on the move)
- Easy to use – with controller in centre console and display on COMAND APS monitor
- Highly flexible – go online with COMAND APS either via the Mercedes-Benz InCar Hotspot[4] and connection to the vehicle aerial or via a Bluetooth® DUN mobile phone[5]

e.g. for E-Class (W/S212): A204 870 7896

£754

1) System requirements: Convenience Telephony (Code 386) or Audio 50 APS (Code 525 or 511) or COMAND APS (Code 527 or 512); WLAN-enabled device with WLAN IEEE 802.11 b/g interface. If you have any questions about compatibility with your vehicle, please contact your local Mercedes-Benz Retailer.
2) Connections to data networks such as HSDPA/UMTS or GSM/GPRS/EDGE.
3) Only in conjunction with COMAND APS (Code 527 or 512). If you have any questions about compatibility with your vehicle, please contact your local Mercedes-Benz Retailer.
4) Up to four WLAN-enabled devices can be used via the Mercedes-Benz InCar Hotspot at the same time. In order to use the InCar Hotspot, a WLAN stick is required (B6 782 2602).
5) Bluetooth phone must be able to transmit internet data using Bluetooth Dial-Up Networking (DUN) profile and external modem use must be activated by mobile provider (tethering).

A new dimension to driving. Navigation and more with Mercedes-Benz.

Whether you're heading home or off to a meeting, you want to arrive on time, feeling relaxed and stress-free. You can now transform your audio 20 CD radio into a high performance, easy to use navigation system to provide you with the optimum route to your destination. There's plenty of entertainment on board too, thanks to Bluetooth, audio and USB interfaces; perfect if you fancy a chat or want to listen to your favourite music.

Becker® MAP PILOT[1 2]

- Practical extension – transforms Audio 20 CD radio into a fully fledged navigation unit
- Easy to use – instrument cluster display, operated using controller
- Arrive relaxed – integral TMC tuner, map data for 47 countries

e.g. for C-Class (W204 from 03/2011): A166 900 0001

£495

MediaNavigationCenter[4]

- Always on time – navigation unit, providing audible directions in 18 languages, map data for 35 countries, integral TMC tuner
- Well entertained – CD/DVD drive, USB/iPod connection and AUX input, iPod/iPhone® video playback, 4 x 50 W output
- Safe phone usage – hands-free system with integral Bluetooth® module
- Convenient – operated via multifunction steering wheel or touchscreen
- Long-term enjoyment – easy to retrofit, permanently installed and protected against theft

e.g. for B-Class (W245): B6 788 5199

£1036

Navigation 20[3 4]

- Get there faster - Reality View Pro, shows realistic depictions of road signs on motorways, Lane Assistance Pro and destination input via map
- Perfect entertainment - connections for your MP3 player, iPod® or iPhone®
- Simple safe controls – operated via multifunction steering wheel

e.g. for E-Class (W212): A212 870 0396

£715

1) System requirements: Audio 20 CD radio, multifunction steering wheel Code 442, Becker MAP PILOT as factory-fitted optional extra Code 509 or as accessory where pre-installation Code 508 is fitted.
2) Components: Becker MAP PILOT, navigation module in separate packaging, incl. USB cable and brief user guide, holder for Becker MAP PILOT in glove compartment, cabling between glove compartment and Audio 20 CD radio, GPS receiver.
3) System requirements: Audio 20 CD radio.
4) For details of compatibility with your vehicle, see page 13 or contact your local Mercedes-Benz Retailer.

All the thrills of the cinema. On a relaxing drive in your Mercedes-Benz.

Long car journeys can be demanding on any driver – even more so when there are children on board. But with entertainment solutions from Mercedes-Benz, the passengers in the rear will feel that the journey wasn't long enough. Watching videos, listening to music or surfing the internet on an iPad® keeps the rear seat passengers occupied and ensures a relaxing journey for everyone on board.

Rear Seat Entertainment System[1]

- More relaxing journeys – optimum entertainment for rear-seat passengers, without disturbing the driver or restricting rear visibility
- Cinema atmosphere – two 17.8 cm colour screens, each with integral DVD player and option of separate video playback
- Also available with single monitor
- Boredom-free travel – USB, SD card slot and AUX input for image, video and audio formats, 2 sets of infrared headphones and a remote control
- Safety for all – screens are permanently integrated into the seats

e.g. for C-Class (W204): B6 782 7057

£1348

iPad® Docking Station Plus for rear compartment[2 3]

- Entertainment plus safety – iPad can be slotted into place and removed simply, safe permanent docking station behind the head restraints
- Go online during the journey – can be networked with internet solutions, e.g. Mercedes-Benz InCar Hotspot
- Always ready for action – charging function via USB cable, plus openings for on/off buttons and headphone connections
- Flexible – mount tilts and swivels

e.g. for C-Class (W204), iPad 2: A204 820 0276

£333

1) For information about compatibility, please contact your local Mercedes-Benz Retailer.
2) No pre-installation required. Not in conjunction with optional extra Rear Seat Entertainment System/pre-installation (Code 864/866) or with accessory Rear Seat Entertainment System (2-monitor version). Can, however, be combined with single-monitor version.
3) Available for iPad 1 or iPad 2.

RADIO

At home in your living room. Listening to music on the road.

Do you want to be able to listen to your favourite music during your journey? With interface options from Mercedes-Benz, your iPod® can be connected to your vehicle plug and play-style and you can instantly select a track via the instrument cluster display.

Mercedes-Benz iPod® Interface Kit[1]

- Convenient controls – use the multifunction steering wheel to scroll through menus [A] and adjust the playback and volume [B]
- All your favourite music at hand – all song titles, albums, playlists and artists on your iPod/iPhone® are shown in the instrument cluster display [C]
- Safe and always available – iPod/iPhone® is connected in the glove compartment and charged (optional iPod/iPhone® holder required)

e.g. for C-Class (W204 up until 03/2011): A204 870 4496

£297

Media Interface Plus[2]

- Simply more possibilities – intelligent extension of the Universal Media Interface for Bluetooth® mobile users
- Easy to use – menus shown on Audio 20 CD radio, operated using multifunction steering wheel and controller
- Perfect entertainment – play videos and music from an iPod or listen to music from a Bluetooth® mobile via audio streaming
- Always in contact – contact details saved on your mobile are shown on the central display
- Up to speed – text messages and emails are read aloud[3] and can be answered using set replies

Item no.: A212 900 8112[4]

£231

1) The iPod Interface Kit is compatible with the following models: iPod from 4th generation | iPod video | iPod photo | iPod U2 | iPod mini | iPod nano up to 6th generation | iPod classic | iPod touch 1st and 2nd generation | iPhone 1st generation, 3G, 3GS, 4 and 4S. No factory-fitted optional extra required. Does not support your iPhone's phone function. Please contact your local Mercedes-Benz Retailer for details of other function restriction.
2) For models with Media Interface (Code 518). To find out more about the compatibility of specific models and mobile phones, contact your local Mercedes-Benz Retailer.
3) In German and English only.
4) Text Messages and emails read aloud in English. German version A212 900 8012.
